

Beatriz Cabrera named director of growing Sedgwick operations in Brazil

SÃO PAULO, 04 June 2019 – Sedgwick, a leading global provider of technology-enabled risk, benefits and integrated business solutions, announced the appointment of Beatriz Cabrera as director of its operations in Brazil.

Brazil is a key growth market for Sedgwick, which operates globally in over 65 countries and serves customers domestically from offices in São Paulo and Rio de Janeiro. According to Martin Faller, Sedgwick managing director for Brazil, bringing Cabrera on board will enhance client service delivery and is a sign of the company's commitment to continued growth in Latin America.

Cabrera brings to Sedgwick more than a decade of experience in the Brazilian insurance market. She previously served in director-level roles managing legal, claims and administrative teams. In her career, Cabrera has conducted analyses on some of the most complex claims in Brazil and Latin America. Her background as a high-profile attorney focused on claims and the reinsurance sector positions her well to further raise Sedgwick's profile in the Latin American market.

"Brazil remains one of Sedgwick's most important growth markets globally as we continue to expand our capabilities here," Faller said. "We are excited to have Beatriz join our team and lead the ongoing development of our business across the region. Our duty is to ensure that all clients, regardless of location, can count on Sedgwick to take care of them; by bringing together robust global capabilities and exceptional local talent like Beatriz, Brazil and all of Latin America will be well served in the short term and long into the future."

"I am extremely pleased to be joining the Sedgwick team in Brazil and look forward to supporting the company's growth strategy," Cabrera said. "I relish the opportunity to be joining an exceptional organization that provides such a broad spectrum of services across Brazil and Latin America and all around the world."

Sedgwick's operations in Brazil cover several key areas of loss adjusting, including construction, engineering, energy, liability, marine and property.
