Who we are

Since our founding in 1969, Sedgwick has grown from a regional third-party administrator (TPA) into the leading global provider of technology-enabled risk, benefits and integrated business solutions. Our network of 21,000 colleagues in 65 countries offers a broad range of services designed to keep pace with the evolving needs of clients and consumers in casualty, property, marine, benefits and other lines. Our comprehensive business solutions are unparalleled in our industry; we focus on mitigating and reducing risks and losses, keeping employees and organizations healthy and productive, protecting brand reputations, and containing costs that can impact the bottom line. We aim to remove complexity from the process, take care of the hard work behind the scenes, and make things easier for everyone involved.

We approach the important work we do with the philosophy that caring counts. Taking care of people—from public and private employers to insurers and their policyholders—is at the heart of everything we do. Each year, millions turn to us for support when something unexpected happens. Whether they have a workplace injury, suffer a loss from a catastrophic event, need time away for the birth of a child, or are involved in an accident, they count on Sedgwick for compassionate care and expert guidance to make things right.
