Hurricane Michael – Update as of October 9

With Hurricane Michael approaching the Florida panhandle and surrounding areas, the team at Sedgwick repair solutions would like to ensure our clients and business partners know they can call us to help them find building repair contractors for board-ups, roof tarps, water mitigation, emergency repairs, temporary power and general construction.

We provide complimentary concierge services and we manage the repair process for residential and commercial properties. Our team offers customized restoration and mitigation services through our network of certified local, regional and national contractors. They will immediately begin mitigating the damages as quickly as possible to restore your property to its pre-loss condition. This is a free service and it allows our clients, business partners and their employees to focus on their families and their work rather than wrestling with property repairs and emergency services.

Michael is currently a Category 3 storm and is expected to make landfall Wednesday afternoon. Sedgwick repair solutions has mobilized contractors to service the region and we are ready for whatever Michael may bring.

You can reach us 24 hours a day at 1.800.587.4243. To learn more about our services, please visit [our website](#).
