Flash floods and landslides devastate Jakarta – CAT response services

Flash floods and landslides hit Jakarta, causing tens of thousands to evacuate the capital city on Thursday and killing at least 26 people. The disaster also flooded roads, blocked train lines and caused power outages. Authorities state this is the heaviest rain to hit Jakarta in more than 20 years, with more deluges in the forecast. Sedgwick would like to ensure that our clients know we are here to help.

Flooding in Indonesia

Situation as of Jan 2
