Jakarta flooding and landslide update – CAT response services

Torrential downpours leading to devastating flash floods and landslides hit Jakarta last week, causing the death toll to pass 60 and thousands of evacuees to live in emergency shelters. We are also beginning to learn the breadth and depth of the losses to the city's businesses and infrastructure.

To those impacted — we are with you and we are here to help. Sedgwick's dedicated team of adjusters are onsite to support clients and their insureds with flood claims during this difficult time. In addition, we have staff in our branch offices on standby to assist in Jakarta as needs require.

Catastrophe contacts:

We are currently monitoring our claim numbers and can also draw on the expertise from Sedgwick colleagues across Asia who have the necessary language skills to assist us at notice. If there are any specific requirements, please contact our catastrophe team listed [here](#). Our senior managers and directors are also here to support you:

Arief Candra, *Senior Manager*
