

Sedgwick expands team in Spain with senior loss adjuster appointments in key sectors

MADRID, 17 July 2019 – Sedgwick, a leading global provider of technology-enabled risk, benefits and integrated business solutions, announced the appointment of four leading experts to its growing team of loss adjusters in Barcelona, Madrid, Seville and Valencia.

The new hires bring decades of experience across their respective fields, which include construction, textiles and the automotive industry.

“Our new colleagues will help us effectively manage the increasing demand generated by our growth in Spain,” said Ana Franco de Sarabia, general manager of Sedgwick in Spain. “Thanks to their wide-reaching expertise and market insights, Sedgwick will continue to offer highly specialized, first-class services to our national and international clients through our unparalleled team of professionals.”

The additions to Sedgwick’s growing presence in Spain are:

Fernando Leal, a textile engineer with degrees from Polytechnic University of Catalonia (UPC) and North Carolina State University, will lead the development of Sedgwick’s presence in Catalonia. He has worked in the Spanish and American textile industry and has more than eight years of experience as a loss adjuster for national companies. Leal specialises in industrial and machinery claims, as well as liability in the textile industry.

Eduardo González Magariño, a master in property loss adjusting and repair, will lead the Seville office and join Sedgwick’s team of construction specialists. González Magariño has 10 years of experience working in loss adjusting for an international company and specialises in construction, civil works and industry and professional liability. He previously worked as an architect for eight years.

Vidal López Medina, civil engineer and MBA, strengthens Sedgwick’s construction expertise. He specializes in foundations and structures and has over 15 years of experience with national and international construction companies. For the past six years, López Medina has worked as a construction and equipment manager for a leading company in Mexico, with a special focus on underground works and mining projects.

Javier Torralba, a technical industrial mechanical engineer, will support the Valencia office. Torralba has more than 20 years of experience as a loss adjuster and has been head of loss adjusting for a national

insurance company. In this role, he has consolidated experience in different types of risk and areas of insurance; he has also collaborated in the automotive sector as a specialist in product liability claims.

“By hiring individuals of this calibre, our clients can continue to experience the professionalism and industry-leading service they have come to expect from the Sedgwick brand,” De Sarabia said. “We look forward to having such talented people on board.”

About Sedgwick

Sedgwick is a leading global provider of technology-enabled risk, benefits and integrated business solutions. We provide a broad range of resources tailored to our clients’ specific needs in casualty, property, marine, benefits and other lines. At Sedgwick, caring counts®; through the dedication and expertise of more than 21,000 colleagues across 65 countries, the company takes care of people and organisations by mitigating and reducing risks and losses, promoting health and productivity, protecting brand reputations, and containing costs that can impact the bottom line.
