

Vericlim acquires First Choice Repair

National managed repair network services damaged properties

NAPERVILLE, Ill., Jan. 4, 2016 – Vericlim—a subsidiary of Sedgwick Claims Management Services, Inc., and global provider of loss adjusting and claims management services—has acquired First Choice Repair, a managed repair network of high-quality contractors servicing damaged commercial and residential properties.

First Choice Repair, based in Jacksonville, Florida, built the claims industry’s first proprietary restoration and repair network. Through the First Choice Repair network, hundreds of credentialed contractors, many of whom operate in the roofing, siding and gutter sector, deliver restoration and repair services to customers across the U.S.

“Vericlim’s reputation in the claims industry was built on expertise in field adjusting for complex, high-severity property loss claims,” said Michael Arbour, CEO of Vericlim, Inc. “With the addition of First Choice Repair, Vericlim is now able to offer a more robust response to high-frequency, low-severity property events resulting from catastrophes or daily claims. First Choice Repair’s large and well-credentialed contractor network, strong client base and talented team led by President and CEO William Breslin will be great assets to our organization. We are excited for the opportunity to work together to help a broader base of customers make things right in the aftermath of catastrophic and everyday property damage.”

“For nearly 40 years, Sedgwick has focused on the care of people in the casualty and disability claims process,” said David A. North, president and CEO of Sedgwick. “Investing in the continued growth of our Vericlim family of companies enables us to apply our philosophy of care in the property loss space. With expanded capabilities and more resources on the ground nationwide, we are better positioned than ever to be where our customers need us when they need us most.”

About Vericlim
